

VÄDERSTAD GENUINE PARTS – ENGINEERED FOR PROFESSIONALS

Parts News

#2 2022

Special Offers

6th June – 21st July 2022

Genuine Parts for our
tillage equipment
and seed drills!

— VÄDERSTAD —

Autumn – season of possibilities

Autumn is coming with all its possibilities and opportunities. Is it time to cultivate the soil to optimise next year's result? Or do you have time for an autumn drill to maximise the yield of the year? Maybe both?

Well, you have your conditions and your professional plan. And we are here to help you to reach a perfect emergence. We do this by reminding you to check your Väderstad machine in time before the autumn is here. But also, by offering special prices on all Wear Parts you will find in this Parts News. It is likely that some of your wear parts have received their fair share of wear. And remember that using fresh Genuine Parts for your Väderstad machine is your best guarantee that it will perform the way it should and was designed to do.

News for this issue is that we are also lowering the price of some of our accessories - CrossCutter Knife and BioDrill. If you want to get your entire machine in like new condition this autumn, we would be more than happy to help you. But you know that by now, don't you?

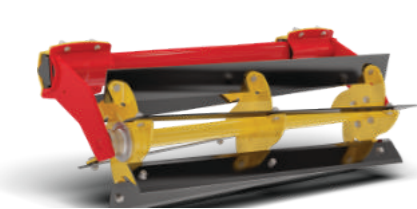

We wish you a successful autumn. And do not hesitate to contact us. As always, we are never more than a phone call away.

Best Regards

Mattias Hovnert
Senior Vice President Global Sales & Marketing
Väderstad Group

Accessories to upgrade your machine

To suit different farming conditions, Väderstad offers many ways to accessorise and upgrade your Väderstad machine. During this Campaign we have special offers on CrossCutter Knife and BioDrills for cultivators. Please call for prices!

CrossCutter Knife

For Carrier 500, 650, 925 and 1225, as well as Carrier XL 425-625.

BioDrill 180-250

For Carrier 300-400, Cultus 300-400 and TopDown 300.

BioDrill 360

For Carrier 420-820, Carrier 925-1225, Carrier XL 425-625, Carrier XL 925-1225, Opus 400-700 and TopDown 400-700.

Durable points maximise your work result

Väderstad's cultivating points are specially designed and optimised for our machines in order to maximise your work result.

Now £14.30
(£15.90 rrp)

50mm point
For Cultus, Opus, Swift
and TopDown.
Art. No: 155027

Now £16.65
(£18.50 rrp)

50/80mm point
For Cultus, Opus, Swift
and TopDown.
Art. No: 188623

Now £17.00
(£18.90 rrp)

80mm point
For Cultus, Opus,
Swift and TopDown.
Art. No: 155028

To see our full range of points, scan the QR code to see our point configurator.

Good to know!

Collar nut – Makes the work easier

Point replacement is fast and easy with the locking collar nut. The nut is fixated in the sleeve and does not damage the paintwork.

Tip! The change is quick and easy with a cordless battery powered wrench.

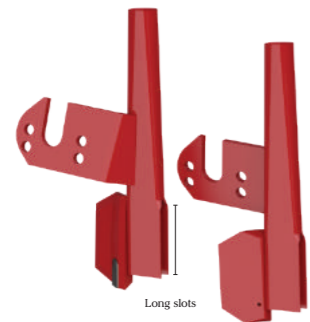

All prices are excl. VAT. We reserve the right for any printing errors.
Retail prices are valid from 1 June 2022 to 30 September 2022 (subject to changes). RRP = Recommended retail price.
Campaign period: 6 June 2022 – 21 July 2022.

Coulters for superb emergence

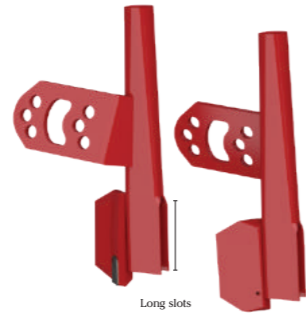

Each seed in exactly the right place, year after year.
That's what Väderstad seed coulters bring to the table.

- Perfect fit ensures that the seeding result is maintained.
- Minimises wear and draw force requirement.
- Material hardness optimised where it is needed for a maximum working life.
- Wolfram carbide drastically extends the working life and lowers the maintenance costs.

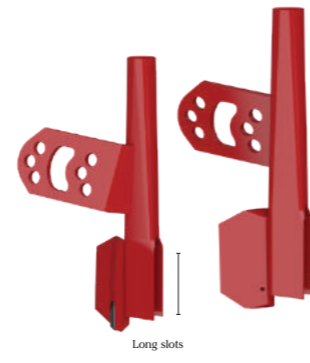

Now £44.55
(\$49.50 rrp)

Seed coulters/ Fertiliser coulters
Rapid s/n 100-898. Long slots.
Art. No: 307107 LH/307108 RH

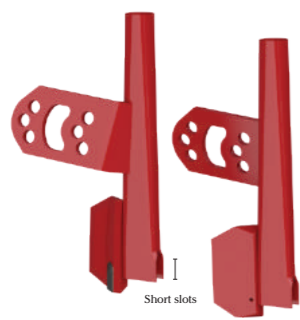

Now £40.05
(\$44.50 rrp)

Seed coulters, (RD, RDA)
Rapid s/n 899-. Long slots.
Fertiliser coulters, (RDAC).
Art. No: 432116 LH/432117 RH

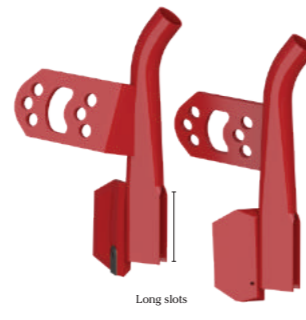

Now £44.55
(\$49.50 rrp)

Seed coulters
Rapid s/n 899-. Long slots and wide slot for large seeds.
Art. No: 191167 LH/191168 RH

Now £40.05
(\$44.50 rrp)

Seed coulters, (RD, RDA)
Rapid s/n 899-. Short slots.
Art. No: 432118 LH/432119 RH

Now £44.55
(\$49.50 rrp)

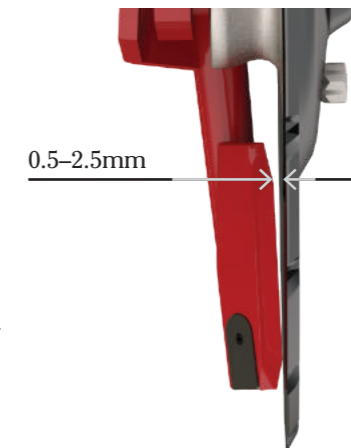

Fertiliser coulters, (RD)
Rapid s/n 899-.
Only available with long slots.
Art. No: 432120 LH/432121 RH

Good to know!

Coulters and disc one unit

The coulters should touch the disc in the lower part.
The top should have a space of 0.5–2.5mm.

Note! The coulters must never reach below the disc level.

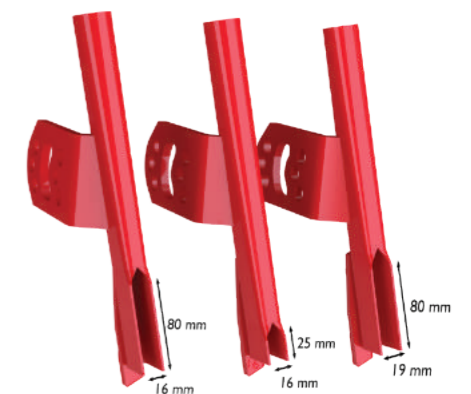

Good to know!

Long or short slots and different widths?

Short slots increase the accuracy of seed placement, which is important in dry conditions during spring drilling. In very wet and tough conditions, short slots can be a bit more sensitive and may block more frequently.

16mm slot width works for most crops. When drilling large seeds such as beans the wider 19mm slot is a safer choice since it reduces the risk of blockages.

Rapid seed discs – minimal maintenance

A Väderstad coulter, places every seed at exactly the right spot. Each spot must be prepared to give the seed perfect conditions to grow. Long-term precision with minimal maintenance is desirable. This is the job of the Rapid seed discs.

- Built from special hardened Swedish steel – V55
- Robust construction
- Excellent performance
- Extremely long working life in the field

Now £27.45
(£30.50 rrp)

Seed disc Ø410, flat
Year model 1996–2014. For Rapid s/n 1500-16000. V-55 steel. **Art. No: 451371**

Now £31.95
(£35.50 rrp)

Seed disc Ø410, flat
System Disc. Year model 2015–. For Rapid s/n 16001- and Rapid A s/n 17000-. V-55 steel. **Art. No: 159937**

Now £29.25
(£32.50 rrp)

Disc Ø410, conical
System Disc. Year model 1998–2014. For Rapid s/n 3040-16000. V-55 steel. **Art. No: 451372**

Now £33.20
(£36.90 rrp)

Disc Ø410, conical
System Disc. Year model 2015–. For Rapid s/n 16001- and Rapid A s/n 17000-. V-55 steel. **Art. No: 156660**

Now £37.35
(£41.50 rrp)

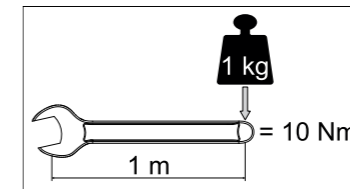

Disc Ø450, conical
System Disc Aggressive. Year model 2005–2017. For Rapid, Spirit, Carrier and TopDown. V-55 steel. **Art. No: 466947**

Good to know!

Change bolts when you change discs

The seal between the hub and the disc ensures that no moisture will enter the bearing. New bolts guarantees a firm attachment for the disc's entire lifetime. An additional benefit is that the bolts heads will stay in good shape making removal easier. Therefore it is recommended that you also change your bolts when you are changing the discs.

105 Nm

Now £0.90
(£1.00 rrp)

Bolt 10.9
Conical head gives a very high shear strength. Used with 159937, 156660 and 466947. **Art. No: 461262**

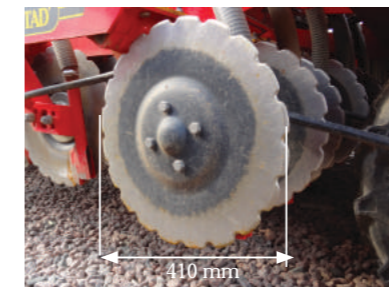

105 Nm

Now £0.48
(£0.53 rrp)

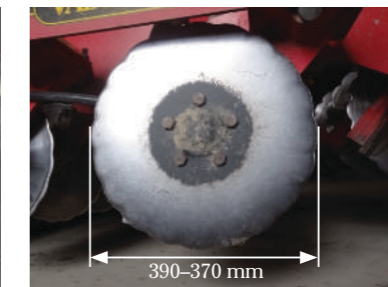

Bolt M12x16 8.8
Used with 451793, 451792, 451371 and 451372. **Art. No: 50001201621**

Good to know!

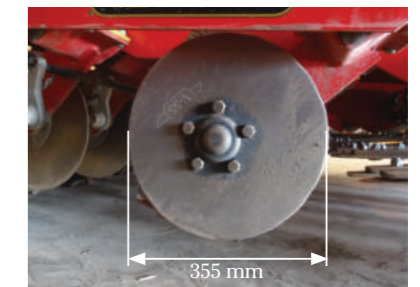

When to change your discs?

Seeding with no interference

Order new discs

Replace discs

Note! The coulter must never reach below the disc level.

CrossCutter Disc – Full cultivation at ultra-shallow working depth

The CrossCutter Disc provides full cultivation at only 2-3cm* working depth and 15-20km/h speed. Its unique cutting intensity crushes, chops and mulches in one single pass.

- Complete cover crop elimination after one pass
- Shallow working depth – less fuel – higher speed
- Excellent in oilseed rape stubble
- Great in grain stubble, helps fight grass weed
- Ploughed land seedbed preparation – creates fine tilth
- All discs are developed, tested and produced in our own Genuine Parts factory – Väderstad Components
- Produced in high quality Swedish V-55-steel

Since CrossCutter Disc delivers a surface completely cut out, it is able to handle large amounts of organic material.

CrossCutter Disc provides an intensive work at ultra-shallow depth

CrossCutter Disc intensively chops, crushes and mulches the crop residues at 2-3cm* working depth.

Ultra-shallow tillage by CrossCutter Disc make the leftover oilseed rape seeds germinate into an extensive stale seedbed.

* Valid for CrossCutter Disc 450mm. The CrossCutter Disc 510mm, provides full cultivation at 3-5cm working depth.

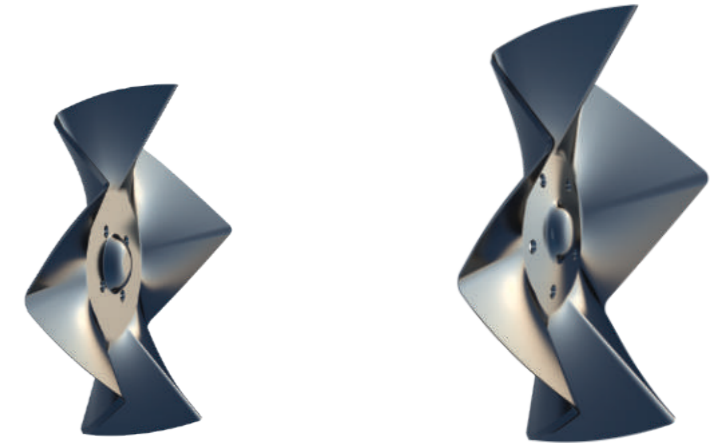

One disc – one arm

Each CrossCutter Disc is individually mounted to its own rubber suspended disc arm. This gives them a great ability to follow the ground contour, thus ensuring very even results.

The 45cm CrossCutter Disc fits the following Carrier range:

Carrier 300-400	s/n 15076-
Carrier 420-650	s/n 14972-
Carrier 925	s/n 14927-
Carrier 820 & 1225	s/n 15014-

The 51 cm CrossCutter Disc fits on all Carrier XL 425-625.

Now £55.35
(£61.50 rrp)

CrossCutter Disc Ø450
For Carrier 300-400, Carrier 420-1225 and Carrier X 425-625 with 45cm – 47cm disc. From year model 2019-. V-55 steel. **Art. No: 208020**

Now £64.70
(£71.90 rrp)

CrossCutter Disc Ø510
For Carrier XL 425-625 with 51cm – 61cm disc. **Art. No: 208022**

Cultivator discs – designed for agronomic performance

The conical shape of the high-quality Väderstad discs produces fine tilth and mixes residues evenly. The shape also ensures that the same working angle is maintained irrespective of wear and working depth. The vertical attack angle prevents cultivation pans and keeps stones in the soil.

Now £37.35
(\$41.50 rrp)

Disc Ø432 conical
System Disc Aggressive. Year model 2001–2005. For Carrier and TopDown. V-55 steel. **Art. No: 459608**

Now £37.35
(\$41.50 rrp)

Disc Ø450 conical
System Disc Aggressive. Year model 2005–. For Carrier and TopDown. V-55 steel. **Art. No: 466947**

Now £42.75
(\$47.50 rrp)

TrueCut Ø470, conical
20–30% longer life-time than a standard disc. Year model 2005–. For Carrier and TopDown. V-55 steel. **Art. No: 179857**

Now £62.55
(\$69.50 rrp)

TrueCut Ø510, conical
System Disc Aggressive. For Carrier XL. V-55 steel. **Art. No: 170097**

Now £72.45
(\$80.50 rrp)

TrueCut Ø610, conical
System Disc Aggressive. For Carrier XL. V-55 steel. **Art. No: 154626**

Good to know!

Why V-55 on Väderstad discs?

The V-55 mark on the Väderstad genuine discs are a sign of Väderstad high quality Swedish steel. The number 55 represents the hardness measured in the unit Rockwell C HRC. This unique material structure makes it possible to push the hardness level from industry standard HRC 47-48 to HRC 55, while still preserving a very intense shock resistance.

A close-up, low-angle shot of a Väderstad harrow blade cutting through green grass. The blade is highly reflective, showing a clear reflection of the surrounding environment. The background is blurred, showing more of the harrow and the grass.
