## Midi Tracked Excavators - Conventional Tail

### SV100

The SV100-2 combines the compact dimensions of a midiexcavator with the class-leading performance of a much larger machine. With a width of just 2,320mm, the 9.6-tonne excavator offers rock-solid stability and impressive power – the perfect partner for a wide range of applications, including urban renewal and grading.

**Operating Weight: 9625 kg**

**Width: 2320 mm**

**Digging Depth: 4290- 4640 mm**

### SV120

The SV120 has four independent hydraulic circuits meaning it can use a wide range of attachments. The powerful, low-consumption and eco-friendly engine meets the latest EU and EPA regulations, and offers two-speed travel drive with automatic and rapid shifting.

**Operating Weight: 11300-11500 kg**

**Width: 2500 mm**

**Digging Depth: 4300- 4640 mm**
